

1) Measure under your bust and note the colour on the Bra Sizing Tape Measure. Wear a comfortable no-padded bra when you take the measurement.

2) Measure the fullest part of your bust and read off the size in the colour you noted from the first reading. This is your bra size.

The Bra Size Tape Measure has been tested, 90% of women say it gave them an accurate size. Remember that bra manufacturers make bras to their own specifications and the same size bra from different companies may vary. As the shape of women's breasts and bodies are individual the correct size bra is always the size that fits you best.

If within 21 days you are not happy with your purchase please return it to us for a full refund. If you paid via PayPal the refund will be made through their system.
